

DIGITAL Tenant Directory

The world of digital media has reached out and touched every part of our daily lives from our office to our homes and even at play. The time has now come to take your building into the 21st Century with Escientia's revolutionary Digital Tenant Directory[®] solution.

Digital Tenant Directory delivers a superior solution for your occupant management needs. Its complex architecture is hidden behind an easy to use application, delivering a simple, flexible and practical approach to maintaining your tenant information while at the same time making a lasting first impression when visitors enter into your building's foyer.

DIGITAL Tenant Directory

Image is Critical

Organisations searching for their corporate home in this ultra competitive age will immediately be aware of the value and prestige that digital signage will bring to their organisation when attracting new clients or recruiting new staff.

Escientia's **Digital Tenant Directory**® is at the vanguard of digital signage, it's philosophy is **Simple, Flexible and Practical**;

Name	Level	Suite

Developed by escientia Pty Ltd www.escientia.com.au

Integrate your unique corporate look

- A Simple, application which is easy to use and requires minimal training to get up and running. No specialist skills required, take control of your tenant directory.
- Flexible, as your building changes tenant details may be easily modified to take effect immediately without any third party intervention.
- A Practical solution delivered on the latest multimedia platform.

Advertising Add-on Module

Why not use your directory to generate additional revenue or as an added value to your tenants.

Adding the advertising module will enable you to predefine a set of adverts to appear either sequentially or randomly on the tenant directory. The intervals and the number of adverts may be easily configured to meet your individual building needs.

Weather Currently 22.6° in Sydney
